WARNING CONCERNING COPYRIGHT RESTRICTIONS

The copyright law of the United States (Title 17, United States Code) governs the making of photocopies or other reproductions of copyrighted material. Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

Variables 1571-1577

Source: U.S. Bureau of the Census, Sixteenth Decennial Census of the United States, 1940. Agriculture. "Cash Rent Paid or Payable by Cash Tenants & by Part Owners Renting on a Cash Basis." (Washington, D.C. 1944), Table 10.

Variables 1600-1629

The 1940 census had suppression of cells with fewer than three farms, except the cells for number of farms. It was possible to fill in some of these cells with data provided from the 1945 Census of Agriculture. It was also possible to use formulas to calculate sums of rows & columns in the tables to get missing cell values. Finally, in a few cases, estimates were made. Consequently, there will be empty cells where data clearly should be present.

Type of Farming Area Codes (var1576):

Generalized type-of-farming areas in the United States as delineated by the Department of Agriculture in cooperation with various local groups familiar with farming in particular areas are presented in this column. Further discussion of this regionalization is presented in the definitions & sources in this book & in Generalized Types of Farming in the United States, Jan. 1946, prepared by the Department of Agriculture, Bureau of Agricultural Economics.

In presenting these type-of-farming areas, the Department of Agriculture has used a designation which consisted of a Roman numeral, a letter & an Arabic numeral. The code presented here is a three-digit numerical code since such a code is better for punch card use. The code used in Col. 63 is presented in the first column below, the Department of Agriculture code in the second column, & the title assigned to the area indicating the predominant type of farming in that general area in the third column.

United States Agriculture Data, 1840 - 2010

Variable Description and Frequencies

Note: Frequencies displayed for the variables are not weighted. They are purely descriptive and may not be representative of the study population. Please review any sampling or weighting information available with the study.

Summary statistics (minimum, maximum, mean, median, and standard deviation) may not be available for every variable in the codebook. Conversely, a listing of frequencies in table format may not be present for every variable in the codebook either. However, all variables in the dataset are present and display sufficient information about each variable. These decisions are made intentionally and are at the discretion of the archive producing this codebook.

1940 County and State, Dataset 1

STATE: ICPSR state code

Based upon 6,321 valid cases out of 6,321 total cases.

- Mean: 41.15
- Median: 43.00
- Mode: 49.00
- Minimum: 1.00
- Maximum: 100.00
- Standard Deviation: 15.91

Location: 1-3 (width: 3; decimal: 0)

Variable Type: numeric

COUNTY: ICPSR county code

Based upon 6,321 valid cases out of 6,321 total cases.

- Mean: 994.85
- Minimum: 0.00
- Maximum: 9999.00
- Standard Deviation: 1021.89

Location: 4-7 (width: 4; decimal: 0)

Variable Type: numeric

NAME: State/county name

Based upon 6,321 valid cases out of 6,321 total cases.

Location: 8-29 (width: 22; decimal: 0)

Variable Type: character

STATEFIP: FIPS state code

Based upon 3,160 valid cases out of 6,321 total cases.

- Mean: 30.46
- Median: 29.00
- Mode: 48.00
- Minimum: 1.00
- Maximum: 56.00
- Standard Deviation: 14.98

Location: 30-31 (width: 2; decimal: 0)

Variable Type: numeric

FIPS: State/county FIPS code

Notes: Please note that this variable is specified in the data file with 9 digits after the decimal point. Only 2 digits are included after the decimal point in the display format.

Based upon 3,158 valid cases out of 6,321 total cases.

- Mean: 30555.97
- Minimum: 1000.00
- Maximum: 56047.00
- Standard Deviation: 14993.33

Location: 32-46 (width: 15; decimal: 9)

Variable Type: numeric

LEVEL: County=1 state=2 USA=3

Based upon 6,321 valid cases out of 6,321 total cases.

- Mean: 1.02
- Median: 1.00
- Mode: 1.00
- Minimum: 1.00
- Maximum: 3.00
- Standard Deviation: 0.13

Location: 47-47 (width: 1; decimal: 0)

Variable Type: numeric

VAR1: Total population, number, 1940

Based upon 3,137 valid cases out of 6,321 total cases.

- Mean: 126235.11
- Minimum: 0.00
- Maximum: 131669275.00
- Standard Deviation: 2399477.00

Location: 48-56 (width: 9; decimal: 0)

Variable Type: numeric

VAR2: Urban population, number, 1940

Based upon 3,137 valid cases out of 6,321 total cases.

- Mean: 71353.01
- Minimum: 0.00
- Maximum: 74423702.00
- Standard Deviation: 1372266.62

Location: 57-64 (width: 8; decimal: 0)

Variable Type: numeric

VAR3: Total population, number, 1930

Based upon 3,136 valid cases out of 6,321 total cases.

- Mean: 117723.31
- Minimum: 52.00
- Maximum: 122775046.00
- Standard Deviation: 2238192.57

Location: 65-73 (width: 9; decimal: 0)

Variable Type: numeric

VAR4: Number of farms, 1940

Based upon 3,133 valid cases out of 6,321 total cases.

- Mean: 5841.57
- Minimum: 0.00
- Maximum: 6096799.00
- Standard Deviation: 110595.43

Location: 74-80 (width: 7; decimal: 0)

Variable Type: numeric

VAR5: Approximate land area, acres, 1940

Based upon 3,135 valid cases out of 6,321 total cases.

- Mean: 2058437.21
- Minimum: 14080.00
- Maximum: 1905361920.00
- Standard Deviation: 35343789.82

Location: 81-90 (width: 10; decimal: 0)

Variable Type: numeric

VAR6: Proportion of land in farms, 1940

Based upon 3,134 valid cases out of 6,321 total cases.

- Mean: 66.46
- Minimum: 0.00
- Maximum: 193.00
- Standard Deviation: 27.39

Location: 91-95 (width: 5; decimal: 1)

Variable Type: numeric

VAR7: All land in farms, acres, 1940

Based upon 3,133 valid cases out of 6,321 total cases.

- Mean: 1018538.12
